It should be noted that this inspection report should not be regarded as a comprehensive review of all strengths and areas for improvement that exist in the service. The findings reported on are those which came to the attention of RQIA during the course of this inspection. The findings contained within this report do not exempt the service from their responsibility for maintaining compliance with legislation, standards and best practice.

## 1.0 What we look for

## 2.0 Profile of service

Support Care Recruitment Ltd is a nursing agency which was registered in May 2014 to supply registered nurses to a range of healthcare settings and to work with service users in their own homes. To date the agency has not been operational.

### 3.0 Service details

<b>Organisation/Registered Provider:</b> Support Care Recruitment Ltd  <b>Responsible Individual:</b> Mr Petros Jinga	<b>Registered Manager:</b> Mrs Fadzai Burrowes
<b>Person in charge at the time of inspection:</b> Mrs Fadzai Burrowes	<b>Date manager registered:</b> 01 April 2015

### 4.0 Inspection summary

An unannounced inspection took place on 19 March 2019 from 13.30 to 17.00.

This inspection was underpinned by the Nursing Agencies Regulations (Northern Ireland) 2005 and the Nursing Agencies Minimum Standards, 2008.

This inspection was undertaken to establish if the agency was supplying nurses to any setting or regulated service. During discussion with the responsible person the inspector was assured that the agency is not involved in the supply of nurses to any setting.

Evidence of good practice was found in relation to the information contained within of a range of policies and procedures.

Areas for improvement were identified during the inspection in respect of the following procedures:

- safeguarding adults and children
- quality monitoring process
- complaints
- induction
- record keeping
- review of policies and procedures

The findings of this report will provide the agency with the necessary information to assist them to fulfil their responsibilities, enhance practice and service users' experience.

Following this inspection RQIA received confirmation from the registered persons that they wished to voluntarily de-register the nursing agency due to the fact that it had been non-operational since registration in May 2014. Further processes were implemented following the inspection, to de-register the nursing agency.

#### 4.1 Inspection outcome

	Regulations	Standards
<b>Total number of areas for improvement</b>	0	6

Details of the Quality Improvement Plan (QIP) were discussed with Mrs Fadzai Burrowes, manager, as part of the inspection process. The timescales for completion commence from the date of inspection.

Enforcement action did not result from the findings of this inspection.

#### 4.2 Action/enforcement taken following the most recent care inspection dated 31 March 2015

No further actions were required to be taken following the most recent inspection on 31 March 2015.

#### 5.0 How we inspect

Prior to the inspection a range of information relevant to the service was reviewed. This included the following records:

- the previous care inspection report
- all communications with RQIA

The following information was examined during the inspection:

- statement of purpose
- service user guide
- recruitment policy and procedure
- induction policy and procedure
- whistleblowing policy and procedure
- safeguarding policy and procedure
- supervision and appraisal policy and procedure
- record keeping policy
- quality monitoring policy
- complaints policy

The findings of the inspection were provided to Mrs Fadzai Burrowes, manager at the conclusion of the inspection.

## 6.0 The inspection

### 6.1 Review of areas for improvement from the most recent inspection dated 31 March 2015

The most recent inspection of the agency was an announced care inspection.

### 6.2 Review of areas for improvement from the last care inspection dated 31 March 2015

There were no areas for improvement made as a result of the last care inspection.

## 6.3 Inspection findings

The manager informed the inspector that, although the organisation has been registered as a nursing agency since 23 May 2014, they have not recruited or been involved in the supply of nurses.

The statement of purpose and service user guide were reviewed and found to be satisfactory.

Policies and procedures are maintained on an electronic system, and are also available in a paper format retained in the office for use by staff.

A range of policies and procedures viewed by the inspector were noted to have been developed in February 2015, however, these documents had not been reviewed or updated since this time in accordance with the three yearly timescale outlined within the minimum standards. This area for improvement was discussed with the manager who agreed to their review.

The agency's staff recruitment policy and procedure details the system for ensuring that all the required staff pre-employment information are obtained prior to commencement of employment. The inspector noted that arrangements were in place to ensure that staff are registered as appropriate with the relevant regulatory body.

The induction policy was viewed and included limited information to confirm that a structured orientation and induction is provided to all staff in accordance with the related regulations and standards. An area for improvement was identified in this regard.

Staff training and development procedure was viewed and confirmed that all the required mandatory update training subjects are included within the agency's training programme.

The agency's policies and procedures in relation to safeguarding adults and whistleblowing were reviewed. The agency's whistleblowing policy and procedure was noted to be satisfactory.

The 'Safeguarding' policy and procedure provided limited information and guidance for staff and is required to be reviewed. The safeguarding procedure did not reference the Department of Health, Social Services and Public Safety Northern Ireland (DHSSPSNI) guidance of July 2015 'Adult Safeguarding Prevention and Protection in Partnership'. The agency's procedure has not identified the Adult Safeguarding Champion or detailed their key responsibilities within the procedure in line with required guidance. The policy did not provide staff with any guidance in relation to safeguarding children. This is an area for improvement which was discussed with the manager. The updated safeguarding procedure is to be submitted to the inspector with their quality improvement plan reply.

The procedure relating to record keeping was viewed. The recording keeping procedure was noted not to be in accordance with legislation and should be revised to reflect the timescales in which records should be retained, as a period of not less than eight years from the date of last entry. The procedure should include guidance in accordance with recent GDPR information. This area for improvement was discussed with the manager.

The agency's policy and procedure relating to complaints was viewed. The complaints procedure was noted not to be compliant with Regulation 19; this was identified as an area for improvement and discussed with the manager.

The inspector examined management and governance processes which have been developed. The quality monitoring policy and procedure contained a variety of processes to ascertain and respond to the views of service users including; monitoring visits, phone contact details, review meetings and an annual quality satisfaction survey. This procedure also details the process to review accidents, incidents, compliments and complaints, staffing arrangements, training undertaken and audits of documentation. However, the procedure did not include the monthly monitoring reports of the review of the quality of services provided in accordance with minimum standards. It was discussed that monthly monitoring reports should contain a summary of consultation with service users, their representatives and other professionals and evidenced how any issues arising had been managed. This is an area for improvement and was discussed with the manager.

### Areas of good practice

There were examples of good practice found throughout the inspection in relation to procedures in place regarding staff recruitment.

### Areas for improvement

Areas for improvement identified during the inspection related to updating and review of the following policies and procedures:

- safeguarding adults and children
- induction
- quality monitoring process
- complaints
- record keeping
- systematic three yearly review of all policies and procedures

## **7.0 Quality improvement plan**

Areas for improvement identified during this inspection are detailed in the QIP. Details of the QIP were discussed Mrs Fadza Burrowes, manager, as part of the inspection process. The timescales commence from the date of inspection.

The registered provider/manager should note that if the action outlined in the QIP is not taken to comply with regulations and standards this may lead to further enforcement action including possible prosecution for offences. It is the responsibility of the registered provider to ensure that all areas for improvement identified within the QIP are addressed within the specified timescales.

Matters to be addressed as a result of this inspection are set in the context of the current registration of the agency. The registration is not transferable so that in the event of any future application to alter, extend or to sell the premises RQIA would apply standards current at the time of that application.

## **7.1 Areas for improvement**

Areas for improvement have been identified where action is required to ensure compliance with the Nursing Agencies Minimum Standards, 2008.

## **7.2 Actions to be taken by the service**

The QIP should be completed and detail the actions taken to address the areas for improvement identified. The registered provider should confirm that these actions have been completed and return the completed QIP via Web Portal for assessment by the inspector.
